| Important Price Information | <p>Your fixed electricity supply price for your first 12 billing cycles with us will be \$X.XXXXX per kWh as listed below:</p> <p>The fixed electricity supply price is the same for 250, 500, 1,000, or 2,000 kWh average monthly usage. Service will begin after your utility processes our request to switch your service, which occurs within 10 days from the date you agreed to switch.</p> <p>After the expiration of the introductory period, your prices with us will be variable. We will determine the variable supply price in our discretion based on many different factors, which may include competitive prices, industry charges we are responsible for, applicable state and local taxes, profit margins, or other business conditions. For your reference, our electricity supply prices include generation and transmission charges and Gross Receipts Tax only, but they do not include any utility distribution charges or other utility fee or charge.</p> <p>Our current and historical prices are not an indicator of our future prices and we do not guarantee any savings. Our electricity supply prices may be higher than your utility's supply rate.</p> |
| Applicable Fees | <p>An early cancellation fee of \$10 per month remaining on the fixed price portion of your contract applies if you cancel your service during the first 12 billing cycles. There is no fee if you cancel during the variable price portion of this contract.</p> |
| Budget Billing Information | <p>You can request a budget billing plan for the supply portion of your bill with us. If you are already on a Budget Billing plan, your monthly budget billing amount may be adjusted and your utility may perform a true-up upon enrollment with us. Depending on various factors, including season, this true-up could result in a charge, or a credit.</p> |
| Environmental Information | <p>If you are enrolling in a program with renewable power, your price includes the cost for us to purchase Renewable Energy Certificates (RECs). We will purchase RECs produced by wind or solar power generation facilities located in the United States to match the stated percentage of your electricity usage.</p> |
